

Caring support when it's needed most

The UnitedHealthcare Cancer Support Program (CSP) provides compassionate guidance and support for you or a family member who's faced with cancer.

How does it work?

If you're preparing for cancer treatment or have already started, a nurse can help you navigate treatment options and find a network provider from a Centers of Excellence (COE) facility. Here's more of what you can expect:

Connect with a nurse specially trained in oncology for support throughout your treatment journey

Get help exploring your options, finding answers to questions, and managing symptoms and side effects

Receive support working with your doctors, so you feel informed to make decisions for your health

Access digital tools to help provide real-time guidance and identify care needs
